# Sun Metro Begins Fiber Optic Project at the Downtown Transit Center

**EL PASO, TX**—Sun Metro is set to begin a fiber optic project this week at the Bert Williams Downtown Santa Fe Transit Center, 601 Santa Fe, as part of a connectivity upgrade.

“We decided to make the update from the current network cable to fiber optics to improve network connectivity for our passengers using the ticket vending machines,” Chief Transit & Field Operations Officer, Ellen Smyth said. “This is the first step in many upgrades to come for Sun Metro.”

As part of the construction, the ticket vending machines outside the Downtown Transit Center will be removed temporarily.

Construction on this project is set to last until the end of August 2022. Tickets can still be purchased at Downtown Transit Center cashier’s office, or at the ticket vending machines inside the transit center.

Sun Metro customers are encouraged to visit [www.SunMetro.net](http://www.SunMetro.net) or call the Customer Service Center at (915) 212-3333.

The community is also invited to like us on Facebook at [Facebook.com/SunMetro](https://www.facebook.com/SunMetro) or follow us on Twitter [@SunMetro](https://twitter.com/SunMetro).
